The Unico System®

UPC-88/288-20 Outlet Screen

PACKING LIST

Each Kit contains the following:

| Part Number	Outlet Size	Description
UPC-88-20	2-inch	20 White Outlet Screens
UPC-88-20-BLK		20 Black Outlet Screens
UPC-288-20	2.5-inch	20 White Outlet Screens
UPC-288-20-BLK		20 Black Outlet Screens

APPLICATION

The Unico System outlet screen is designed to fit inside the opening of the round Unico outlets, part numbers UPC-56B and UPC-57. They should be used for all floor outlets, or anytime there is a possibility of small objects falling into the outlet. The screens will not blow out if properly installed. The outlet screens are available in two colors, white (standard) and black. Actual size is shown in Figure 1.
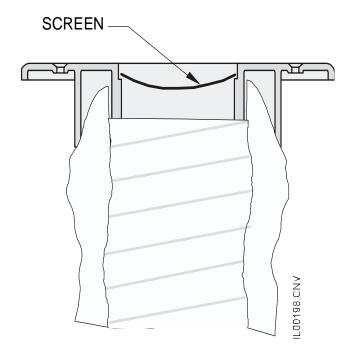

WARNING
To prevent ankle injury, do not step on screen. It is not designed to hold weight.

INSTALLATION

To install the outlet screen, simply push the screen into the opening until the edges of the screen register on the inside lip of the outlet. The screen should be slightly concave as shown in Figure 2. In some cases it may be necessary to bend the wire edges outward to fit snugly.
